Green Feed Green Feed

220 acres grain feed, just right for range cattle or sheep; pasture good until used. Phone: 107R4, Glendale Cox Ranch, Ave. 23 and K. FOR SALE-Jersey cow with heifer calf, Phone 158R5, Glendale. bm

MR. DAIRYMAN

We think we want a show herd of dairy cows all just alike with spots in a certain place and pedigree papers enough to wrap them up in. Which we agree would be lovely and if we had the money to buy such a herd and to fix the necessary stalls and concrete floors and the kind of feed that it's absolutely necessary to keep that kind of cattle we would not want a dairy ranch. The writer has the greatest respect for the above pic-ture and would like very much to see it here, but that takes us back to \$1.50 a pound for cotton which is impos-sible. Let us get back to common sense and a grade of cattle than we can pasture on the kind of feed that we have and where we can back them up in the fence corner and milk them and phone our creamery what corner of the field we milked in last. This we have hundreds of good dairy men here with families; we have thousands of acres of land here that would pasture cattle without extra expense only Now let us get back to eart water. Now let us get back to earth and buy cows of good butter and fat qualities regardless of color or kind, which will cost about \$125.00 each. As they get old and can not serve us longer as a milk cow the butcher can without much loss. The only way to have our dreams come true is to get us a meal ticket and a pure bred
